REMARKS

Harry:

Transmitted herewith is the DDS&T designation paper in the same form and substance as you have already seen for the Security and DO designations. This is the last of the designation memos.

This process of reviewing with DO, Security and S&T the substance of the files to be designated has been exceedingly difficult and arduous. I regret that I did not request all

parties to keep a log of the time that has been devoted to get to this point. Please simply accept my word that there have been many long and tedious meetings to get us where we are. I know also that everyone associated with this review has worked scrupulously to ensure that the DCI is in total and full compliance with the law when he signs the recommendations that certain files be designated. There is not a one of us who cannot attest that this was the case.

Needless to say, I am proud of OIS' leadership and hardwork in directing and monitoring the whole process. Kudos should in time be sent to our resident attorney, and  of OLL as well as  of OGC also made major contributions to this difficult task. In addition, we had nothing but the fullest of cooperation from the components. In time I hope you will sign memos to each which I shall prepare for your signature.

We anticipate that at least HPSCI will call for briefings on the DO designations which even now are being forwarded to the committees as well as the attached DS&T designations.
